#### B. Overview of My Progress Block

The **Assignment Reset Tool (ART)** block was created as a quick and easy way to reset the setting for all assignments in a course. Note that it does not set defaults that are applied when creating new assignments but rather it only resets the setting for existing assignments.

Apart from the standard settings that are available via the assignment settings screen, this block also includes the ability to set the “grade-to-pass” value, which is otherwise accessible via the advanced grading settings. Moreover, with this block, **the grade-to-pass value can be set as a percentage** (see screenshot on the next page).
